Well he fed some of that stress to me. He is good at that.

Thanks Ann.

Seriously....don't bother with this till after the weekend. I can help on this. I told him to look at the tables sent by Cabot (yellow headers) but he's a bit spun up now.

I wonder since you developed this product if it might just be better if you went back and footnoted each entry? We are going to need to tell folks where each bit of data came from.

DEP spreadsheets originally provided to K Johnson then to us. Only other source is the data tables released in December and provided to EPA and ATSDR by Kunkle (all Cabot data).

Bob, because of the volume and diversity of all the data, we need you to go back on the spreadsheets you prepared and footnote where you captured particular values. Maybe that already exists on some version?

We really need this info as soon as possible given the arrival of new data that is significantly different than the values you reference.

Call anytime if want talk more about it.
